

Tour de Rock 2020

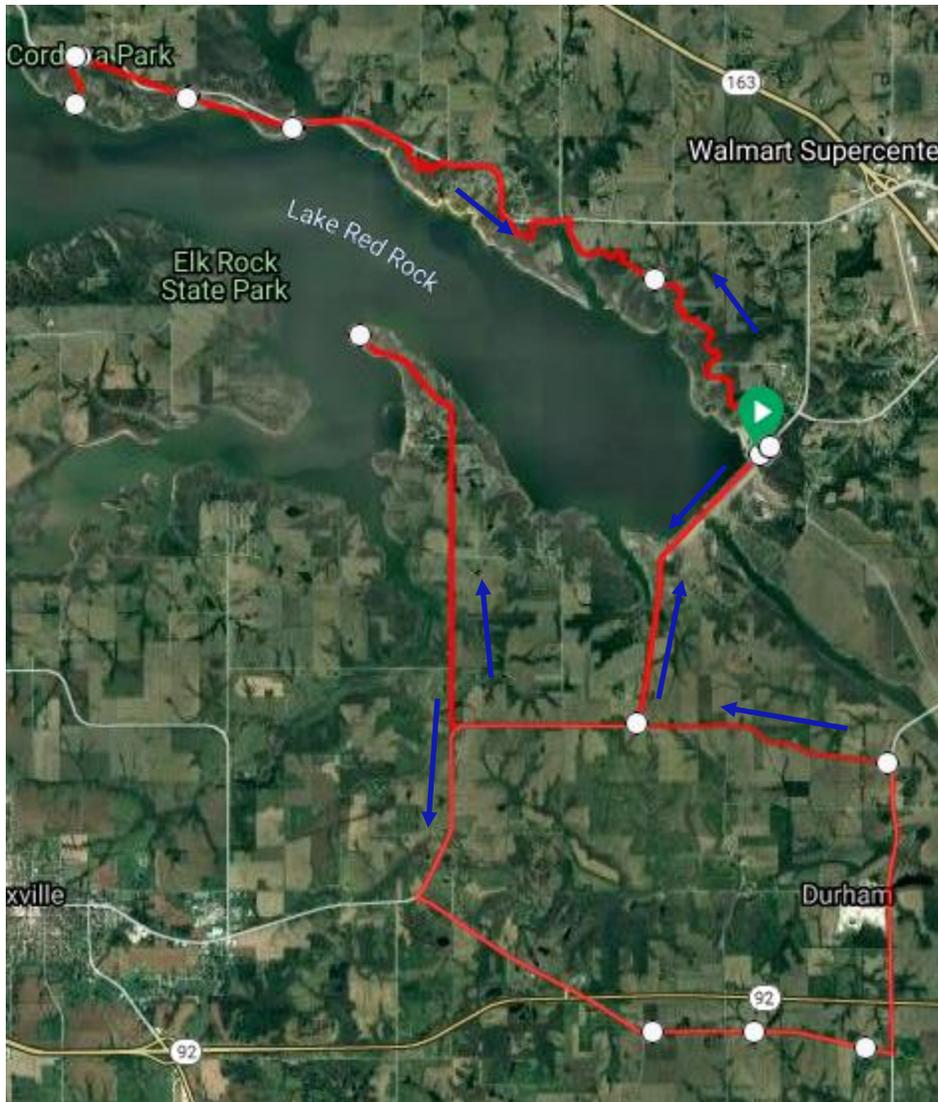

Approximately 46 miles

Start/Finish/Aid Station is North Overlook Pavilion

Approximately 26 miles to the Aid Station stop

Points of interest:

- Red Rock Dam
- Hydroelectric Plant
- Cordova Observation tower (takes quarters if you wish to climb)

We have a new section of bike trail! The Corp of Engineers received a grant to add 2.6 miles to our existing trail, connecting to Cordova Park.

We hope you enjoy it as much as we do!

Also, two sections of road we typically use for Tour de Rock have been paved. This year's ride should be much smoother!!!
